

For Immediate Release

Latitude Technologies to exhibit at Helitech, September 22-24, 2009

Latitude Technologies of Victoria British Columbia announced today that it will exhibit at the upcoming Helitech conference in Duxford, UK, September 22, 23 and 24th. On display will be a full range of satcom products and services offered by Latitude including the SkyNode S100 and S200 products as well as the new Latitude/Technisonic S200-SG11 Satellite Gateway.

“Helitech has proven to be a productive show for us in the past” says Mark Insley, President of Latitude, “Duxford Air Museum is an excellent venue allowing us an opportunity to meet our European customers face to face in one location”.

Please visit Latitude Technologies in Booth 706 during show hours.

About Latitude Technologies

Latitude Technologies Corporation, headquartered in Victoria, British Columbia, is a global supplier of aeronautical voice and data equipment and services. The SkyNode[®] family of products includes the smallest, lightest, most versatile and economical to operate 2-way data networking and messaging devices in the world. Latitude products are supported by the LWS Sentinel[™] data reporting, messaging and flight following service. For more information about the SkyNode S200 and S100 Satcom, voice and data communications solutions and Latitude services, visit www.latitudetech.com or call 1-250-475-0203.
