

**For Immediate Release**

**Latitude Announces Dallas Avionics as Distributor for TDFM "Satellite Gateway" product line**

Latitude Technologies is pleased to announce that Dallas Avionics Inc. of Dallas, Texas, will be the sole distributor of the new "Satellite Gateway" S200 SG11 hardware for use with the option equipped models of the Technisonic TDFM 7000/7300 multiband FM radio series. "Dallas Avionics has been the trusted supplier of Technisonic radios for the past 10 years so it was natural for us to leverage off of their industry leading customer service and support network" says Mark Insley, president of Latitude. "It is clear that the market success of Technisonic radios has come from both a high quality product and distribution partnership with Dallas Avionics so we feel privileged to be part of this very successful team".

The new Satellite Gateway SG11 and option equipped TDFM 7000/7300 can be seen at the upcoming 39<sup>th</sup> annual Airborne Law Enforcement Association (ALEA) annual conference and exposition in Savannah, Georgia, July 22-25 2009. Dallas Avionics Inc. (booth 121), Technisonic Industries Ltd. (booth 359) and Latitude Technologies Corporation (booth 458) will all have option equipped TDFM Radios and S200-SG11 "Satellite Gateway" products available for viewing.
