

For Immediate Release

Latitude Technologies Equips Western Area Power Administration Rotorcraft

Latitude Technologies announced today that the Western Area Power Administration (WAPA) within the U.S. Department of Energy has selected Latitude to provide a suite of Satcom hardware products and related services for its helicopter fleet. Century Helicopters Inc. of Fort Collins, Colorado will be responsible for the installation. Western Area Power Administration markets and delivers reliable, cost-based hydroelectric power and related services within a 15-state region of the central and western U.S. Their transmission system carries electricity from 57 power plants operated by the Bureau of Reclamation, U.S. Army Corps of Engineers and the International Boundary and Water Commission and is regularly patrolled by its Bell 407 rotorcraft fleet.

"We are pleased that WAPA selected Latitude to provide the SatCom hardware and for Century Helicopters to complete the installation for this important project. Together we will provide WAPA with the best solution possible to meet their needs," remarked Michael Hansen, General Manager of Century Helicopters, Inc.
